

# Harsh Rao

Software Engineer

+91-8303097005 | hrao1428@gmail.com | linkedin.com/in/harsh-hr-rao | github.com/Harsh1428rao | Work Samples

## SUMMARY

Software Engineer (B.Tech, CS) skilled in **JavaScript, Python, C/C++, OOP**, and **data structures & algorithms**. Builds and tests full-stack apps with **React, Node.js/Express.js, REST APIs**, and **SQL/NoSQL** databases. Works in **Agile** teams (sprint planning, standups, code reviews) with **Git** and **CI/CD** exposure. Strong communicator, quick learner, and reliable at shipping clean, maintainable code.

## EXPERIENCE

### American Chase

July 2026 - Present

#### Associate System Engineer

Indore, India

- Participate in **code reviews, sprint planning, and daily standups** as part of an **Agile** development team.
- Write clean, maintainable, and efficient code following industry best practices, in collaboration with cross-functional engineering and product teams.
- Support **integration, QA, and DevOps** teams with required technical tasks, including debugging and resolving production issues.
- Contribute to **technical documentation, test cases, and automation** efforts to improve reliability and team velocity.

### LG Soft India

July 2025 - March 2026

#### Software Engineer - Research and Development Intern

Bengaluru, India

- Built 2 production applications in **C++** and **JavaScript** (HTML, CSS, QML) using **OOP** and SOLID design principles, cutting low-level crashes by **20%** through systematic debugging.
- Followed **Agile/Scrum** practices including sprint planning and daily standups; collaborated with QA and build teams to integrate and deploy code across **3+** targets using **Git** and CLI toolchains.
- Wrote and executed **test cases** for system and integration testing, using debugging and static analysis tools to cut issue resolution time by **30%**.
- Authored **3+ technical documentation guides**, cutting new-engineer onboarding time by **25%** and supporting knowledge-sharing across the team.

## PROJECTS

### AI Debugging Assistant | [Live Link](#)

February 2026 - May 2026

- Built a full-stack web app using **Node.js** and **Express.js** with **5+ REST API** endpoints for log ingestion and automated root-cause analysis.
- Built a **React** frontend for real-time log analysis, file uploads, and AI chat support; deployed on **Vercel** and **Render**.
- Wrote automated test cases and validated all endpoints with **Postman**; used **Git** for version control and environment-based configuration for secure deployment.

### CRM - Customer Relationship Management System | [Live Link](#)

April 2025 - December 2025

- Built a full-stack CRM with **React, Node.js/Express.js**, and **MySQL/PostgreSQL**; designed relational schemas for customers, campaigns, and orders.
- Built and tested **10+ REST API** endpoints for CRUD operations and analytics using **Postman**, following microservice-style module separation.
- Integrated **OpenAI API** to power an order recommendation feature, cutting manual workflow effort by **30%**.

## EDUCATION

### Lovely Professional University

August 2022 - May 2026

Bachelor of Technology, Computer Science and Engineering | CGPA: 7.8/10

Punjab, India

## SKILLS

**Languages:** C, C++, Python, JavaScript, Bash

**Core Concepts:** OOP, Data Structures & Algorithms, SDLC, Design Patterns

**Web Technologies:** React.js, Node.js, Express.js, REST APIs, Microservices, HTML, CSS

**Databases:** MySQL, PostgreSQL, SQLite, SQL/NoSQL Concepts, Database Design

**Cloud & DevOps:** Git, CI/CD Concepts, Vercel, Render, Linux, Windows

**Testing & Tools:** Postman, VS Code, CMake, Unit & Integration Testing

**Process:** Agile, Scrum, Sprint Planning, Code Reviews

**AI/ML:** LLMs, Prompt Engineering, OpenAI API

## CERTIFICATIONS

**Cloud Computing** - NPTEL, IIT Kharagpur | **Introduction to Hardware and Operating Systems** - Coursera | **Full-Stack Web Development Using MERN** - Cipher Schools

## ACHIEVEMENTS

**Global Rank 2527** - TCS CodeVita Season 11 (2024) | **Top 5% Performer** - Adobe GenSolve Hackathon (2024) | **Team Lead** - Smart India Hackathon (2024) | **250+ DSA Problems Solved** on LeetCode and GeeksforGeeks
